Many thanks, guys and gals, for shooting the Val Verde Action Shooters AASA Fun Shoot! Hope you had a great time and learned some valuable firearms information and gained some needed handgun proficiency. These courses of fire are designed to test your abilities and your handguns' dependability under numerous circumstances. Some of you found out that close targets are still a challenge to hit with one or both hands!! Please pass the word about these AASA Fun Shoots. Please try and bring some more folks out to join the fun and participate in the shooting sports. Look forward to Roger setting up some great Action Rifle, Black Powder and some SHOTGUN shoots in the future. Thanks again, and see you at the range!
